

Mt. Vernon Barge Service has been in operation since 1962 and provides harbor services for the Port of Indiana - Mt. Vernon (ORM 828) and a score of terminals on both banks of the Ohio River and near the mouth of the Green River.

Combining the capacities of our five locations, we provide fleetings for over 700 barges, including a liquid/petroleum (red flag) fleet of 15, secured 24 hours a day, 365 days a year. We offer the only comprehensive barge cleaning and washing facility between Paducah and Louisville and the only full-size dry dock as well. We also provide in-harbor topside repair service. Our experienced repair crew is available for top side, steel cover and fiberglass cover repairs on site.

Mt.Vernon Barge Service operates stevedoring services for the Port of Indiana - Mt. Vernon from two piers with a pair of Manitowoc 3900 cranes. We have a variety of work flats and crane barges for rent, and offer out of harbor barge pumping and shingling.

MVBS operates a growing fleet of eleven harbor boats. We christened three new boats in 2011 and expect additional fleet and terminal expansion in 2012.

We continue to be one of the most progressive harbor service providers on the US Inland Waterways, providing an inspiring work environment and good family wage jobs for communities in Southern Indiana and Kentucky.

As part of our MVBS 50th Anniversary celebration Mayor John Tucker proclaimed March 15, 2012 "Mt.Vernon Barge Day" in the city. He also presented MVBS President, Don Miller, with a key to the city.

For more information about Mt. Vernon Barge Service, please phone us at (812) 838-4889 or visit our website: www.mvbarge.com.
